Dear Harry,

What a marvelous lunch and visit we had with you last Wednesday! I loved the inscription on the booklet you gave me. "Where do we sign up?" - for that's exactly how I felt when I left. Your enthusiasm and that of your colleagues is most infectious; I'm tucking it away for some day in the future when my kids have finished their education.

It really was most difficult for all of us to return to work that day. We enjoyed the meal, the view, the surroundings and the companionship so much. Thank you for taking the time you did out of your very busy schedule to give us such a wonderful insight into your agency.

Very sincerely,

*Anne*
